

1. Curricular Aspects

1.1 Courses offered with Intake Details

The Department of Linguistics is presently running courses in Linguistics both at U.G. and P.G. and Ph.D. levels. Ph.D. programme with one semester coursework is being offered and it further plans to offer Certificate and Post M.A. Diploma Courses in Linguistics in near future. **The department has adopted Choice Based Credit System CBCS patterns for each programmes since 2017.**

Courses	Duration	Eligibility	Credits	Intake
B.A. (with Linguistics)	3 years (six semesters)	10+2 or equivalent examination from a recognized Board/Institution	120	70 seats
M.A.- Linguistics	2 years (four semesters)	Graduation in any Discipline	80	10 seats
Ph.D. – Linguistics	3-5 years with Course work of One Semester (Minimum and Maximum duration as per UGC Guidelines)	Post graduation with 55% marks in the concerned/relevant/allied subjects or its equivalent CGPA or equivalent Grade. <ul style="list-style-type: none">• Admission through entrance test• NET/JRF can apply directly	16	No. of seats are advertised at the time of admission

1.2 Scheme of Each Courses Offered

B.A.

The undergraduate course in linguistics provides students basic training in linguistics. It basically aims at teaching the basics of language, communication and linguistics. In this course, students are introduced with the some main branches of linguistics such as Phonetics,

Phonology, Morphology, Syntax, semantics, Applied Linguistics, Psycholinguistics, Neurolinguistics, Language Teaching and Testing, Sociolinguistics, History of Linguistics and Lexicography etc.. Some skill enhancement courses are designed to impart giving training in Phonetic Transcription, Linguistic Analysis of Language, and Translation. Apart from this, Discipline Specific Courses provide in-depth knowledge of linguistics whereas Generic Elective courses are designed in such a way that provides how linguistics is interrelated with other disciplines of study. In fact, the syllabus of undergraduate course is designed in such a way that makes the course quite interesting and valuable as per the needs of the students. However, the undergraduate course in linguistics will not only nurture the mind of young students with the knowledge of language and linguistics but it will also leave them inquisitive for further study in this filed.

M.A. – Linguistics

The postgraduate course in linguistics provides opportunity to students to study various aspects of linguistics ranging from traditionally taught areas like Phonetics, Phonology, Morphology, Syntax, semantics, Applied Linguistics, Psycholinguistics, Neurolinguistics, Language Teaching and Testing, Sociolinguistics, Historical Linguistics and Lexicography to the newly emerging areas of linguistics such as Computational Linguistics, Natural Language Processing, Language Technology and Language Documentation. Apart from this, the postgraduate course in linguistics also involves courses on Field Methods in which students are given training for data collection, segmentation, and analysis of linguistic data going to the field and then finally preparing dissertations on given topics of research. The postgraduate course in linguistics with well organized and updated syllabus of it not disseminate the knowledge of various aspects of linguistics but also provide training to students to become a proper linguist.

Ph.D. – Linguistics

The Ph.D. Course work programme in linguistics enable students to do a comprehensive research work in the emerging areas of linguistics. During the course work, students are taught the Research Methodology course in details so that they can understand each and every aspects of a good research work. Further, they are also acquainted with the current or ongoing research work in the field of linguistics. Further, students are given to do review of the published research work in the area of their interest in which they want to pursue their research work. Apart from that, students are also taught some theoretical aspects of linguistics which are essential before pursuing a research work. After successful completion of the Ph.D. Course work, students are allowed to proceed for thesis writing which is the next part of the Ph.D. research work. The Ph.D. programme in linguistics aims at giving a complete training in understanding and doing the research work so that students can contribute something valuable to the field of Linguistics.
