Prof. (Dr.) Yashwant Singh Thakur
Vice Chancellor
Dr. Harisingh Gour University

We feel privileged to inform that Dr. Harisingh Gour Vishwavidyalaya, Sagar, (M.P.) was established in the year 1946 as the first University in the state through philanthropic efforts of Dr. Harisingh Gour an eminent lawyer, educationist, and social thinker. It was accorded a Central University status on 15.01.2009 by an Act of the Parliament. The Vishwavidyalaya has been consistently improving in academic excellence, quality infrastructure, and manpower for imparting quality education, and also for conducting cutting- edge research. The Vishwavidyalaya has been accredited with "A+" Grade in its 4 th cycle of accreditation by NAAC, Bangalore and it is striving hard to gain international recognition.

Best wishes!

Dr. Abhishek Bansal

Head of Department

Computer Science & Applications

Welcome to the Department of Computer Science & Applications at Dr. Harisingh Gour University, Sagar. Our students are nurtured with a strong foundation in theory, practical skills, and exposure to emerging technologies. Through projects, internships, hackathons, and industry collaborations, we ensure they are academically competent, professionally skilled, and industry-ready. We take pride in shaping graduates who are innovators, problem-solvers, and leaders of tomorrow, ready to excel in challenging roles across the technology sector.

About

Doctor Harisingh Gour Vishwavidyalaya Sagar, formerly University of Saugor, was established on 18th July 1946 by Dr. Sir Hari Singh Gour (Nov. 26, 1870 – Dec. 25, 1949) by his lifetime savings. This 18th University of India and the oldest and the biggest University of Madhya Pradesh has perhaps the singular distinction of being founded by the munificence of a single person's hard earned money of about two crore of rupees. Apart from being a great jurist and legal luminary par excellence, he was a great Patriot, Philanthropist, Educationist and Social Reformer.

It has 36 University teaching departments (number keeps adding) 11 schools and 19 affiliated colleges covering various districts of M.P. There are 4 hostels for boys (940 seats) and two hostels for girls (app. 400 seats). State Bank of India. Post office, STD booth, Employment and Guidance Bureau, 3 canteens including fully furnished Indian Coffee House (ICH) and a shopping complex provide auxiliary services in the campus. The Jawaharlal Nehru Library of the University has more than 4,00,000 books.

Department of Computer Science & Applications

Established in 1996-97 with DCA and BCA programs, the department launched the MCA program in 1998 (AICTE approved) and the Ph.D. program in 2005. It now offers M.Sc. in Artificial Intelligence and Big Data Analytics. The department has a modern building with well-equipped laboratories, library, seminar hall, lecture rooms, and faculty offices. Over 1,250 students have graduated across BCA, MCA, and Ph.D. programs, many well-placed in IT companies, academic institutions, and government organizations. The department actively conducts workshops, training programs, and extension services to enhance students' practical skills and industry readiness.

Department Facilities

- Two state-of-the-art computer labs with high-performance systems, updated software, and internet access for hands-on learning and research.
- University-owned dedicated server infrastructure providing students with real-time experience in application hosting, project deployment, database management, and enterprise-level system exposure.
- A dedicated library with a rich collection of reference books, journals, and digital resources to support coursework and project work.
- A dedicated placement cell that connects students with top recruiters, organizes training sessions, and facilitates internships and campus placements.
- Well-ventilated classrooms equipped with modern teaching aids to enhance interactive learning.

Admission Process

The selection procedure for the various programmes at Dr. Harisingh Gour Vishwavidalaya ensures that only the best mind should make it to their campus.

CUET

(Common University Entrance Test) conducted by NTA for BCA, MCA & MSC.

Non - CUET

Direct admission for MSc in AI & Big Data Analytics based on Intermediate marks.

UGC - NET

Admission to Ph.D. programme are based on 70% of the NET score and 30% of the interview.

Academic Programmes

BCA

BCA program is a three-year undergraduate degree designed to build a strong foundation in cs and software development. It blends theory with practical experience, preparing students to thrive in today's fast-evolving tech industry.

MCA

MCA is a two-year postgraduate program that transforms graduates into skilled software professionals. It bridges advanced computer science concepts with real-world application, empowering students to solve complex problems using cutting-edge technologies.

MSc

MSc(AI) is a two-year postgraduate degree designed to deepen students' understanding of core scientific principles, research methodologies, and technological advancements. The program equips learners with advanced theoretical knowledge and hands-on experimental skills in their chosen specialization.

Ph.D

The Ph.D. programme offered by the institute consists primarily of an original doctoral thesis. The aim of this programme is to keep pace with the expanding frontiers of knowledge and provide research training relevant to the present social and economic objectives of the country.

COMPUTER SC. & APPLICATION

Student
Activities

The Department of Computer Science & Applications at Dr. Harisingh Gour University, Sagar, has actively organized numerous inter-departmental competitions, coding challenges, and hackathons. These events aim to foster innovation, encourage collaborative problem-solving, and enhance the practical skills of students. By participating, students get the opportunity to apply theoretical knowledge in real-world scenarios, showcase their creativity, and compete with peers across various departments. Such initiatives also promote teamwork, critical thinking, and leadership skills, preparing students for careers in technology, research, and entrepreneurship.

Cultural Activites

Placement Readiness

Academic Excellence

Students of the Department of Computer Science & Applications possess a strong foundation in core Computer Science concepts, including Data Structures, Algorithms, Software Engineering, Databases, and Web & Mobile Development.

Technical Proficiency

- Skilled in programming languages like Java, Python, C/C++, JavaScript, and frameworks like MERN, React Native.
- Experienced in software development, web and mobile application development, AI & ML projects, and database management.

Placement Readiness

Soft Skills & Professionalism

Students are groomed in communication, teamwork, leadership, and time management.

Actively engage in workshops, seminars, and inter-department events, enhancing interpersonal skills and confidence for corporate interactions.

Industry Readiness

- Participate in hackathons, coding challenges, internships, and live projects, bridging the gap between academics and industry needs.
- Familiar with modern software development methodologies like Agile and Scrum.
