

## 2021-22-STUDENT FEEDBACK

M.Sc. Physics Total Response - 39

**DEPARTMENT OF PHYSICS**  
**DOCTOR HARISINGH GOUR VISHWAVIDYALAYA, SAGAR M.P.**  
**Action Taken Report of M.Sc. Physics Students**  
**STUDENTS FEEDBACK ANALYSIS**

The course content provides sufficient knowledge and skills about the course:

1. **The feedback is very encouraging maximum students has given response in excellent and very good sale so content of the course is very ok and sufficient.**

The course is well structured, interesting, and relevant and up-to date:

2. **The feedback response of the students is excellent so coordinator of the course should do the minor changes in the contents to make the subject interesting.**

The units/ sections in the syllabus are properly sequenced:

3. **According to feedback given by students it can be observed that the given course is arranged in sequence and divided in units properly. For further improvement syllabus should be modified by discussing with HOD of department.**

The course content is adequate in relation to the expected course:

4. **The response of the students is excellent. According to their feedback it is advisable to modify the course content to prepare the students for competitive exams.**

The allocation of the credits to the course is appropriate the level of course:

5. **Maximum students have given the feedback under category of either excellent or very good so no improvement is required here.**

The course is useful in terms of knowledge, concept, vocational skill, analytical ability:

6. **Here also the response of the students is very impressive. According to their feedback some modification are needed for improving the analytical ability.**

The prerequisite Learning is adequate for this course:

7. **Maximum students have given the feedback under category of either excellent or very good so no improvement is required here.**

The course is relevant to the specialization and to the technological advancement:

8. **Maximum students have given the feedback under category of either excellent or very good so major improvement is not required here. Only minor changes are required to make it technologically sound.**

Availability of study material in library and E-content:

9. **Regarding E-content most of the students are falling in the category of good and average so more focussing is required on developing E-content.**

Level of experimental study/teaching in University:

10. **In this area there should be attention to be paid as feedback of majority of the students fall in the category of either good or average. The experiments should be designed on the basis of theory based content**

Delivery of course content in organized manner as per syllabus with case study/demo models and completion of course on time by course coordinator:

11. **In this the feedback of most of the students is in the category of excellent and very good so improvement is not required only coordinator has to maintain it.**

Classes are interesting, interactive participatory via activity/outcome based learning:

12. **According to feedback in this area coordinator has to improve by organizing quizzes etc and promote students to participate in such activities.**

Course Coordinator is knowledgeable, honest, sincere, cordial, enthusiastic, energetic and approachable:

13. **Feedback in this section falls in either excellent or very good category so any major improvement is not required but only one suggestion is that faculty should go in the class with full preparation**

Transparency towards evaluation of answer scripts/assignments by course faculty:

14. **Maximum number of students has given feedback in category excellent and very good. So no need to do more except read the answers carefully during the evaluation of answer scripts.**

Encouragement for self learning/self studies by course:

15. **Feedback is up to mark in this area. So for further improvement coordinator should emphasize on self study.**
