

UGC-HRDC SAGAR

Short-Term Course on GENDER SENSITIZATION

8 March to 14 March, 2019

GENDER SENSITISATION

Gender sensitization is a conceptual based behavioural intervention towards the reordering of practice of gender inequality and producing the sense of gender justice. Patriarchy, a discursive institutional behaviour based on certain cultural value establishment leads to production and reproduction of everyday practice. In this context when we talk about gender sensitization, basically in academic field through university education and training process, it evolves not only to sensitize various unequally based socio-economic and cultural practices between male and female but various conceptual orientations towards gender equality for gender justice.

On this background this one week workshop on gender sensitization tries to sensitise the participant with various theoretical, conceptual and practical aspects of gender inequality, gender justice and gender development.
