School of Applied Sciences

Curriculum Framework

Master of Arts

Based on National Education Policy- 2020

2024-2026

Doctor Harisingh Gour Vishwavidyalaya

(A Central University)

Sagar-Madhya Pradesh-470003

About the Department

In 1950, UNESCO realized the significance of the teaching of Criminal Justice at the College and University levels in Asia, and in 1955, a consensus emerged in a symposium held in London. University of Saugor (Sagar) responded to that consensus first and as a result, the Department of Criminology & Forensic Science was established on 18th July 1959 largely due to the initiative taken by Shri D. P. Mishra, (the then Vice Chancellor, 1956-1962, and later Chief Minister of Madhya Pradesh). The former Chief Justice of Madhya Pradesh High Court, Justice G. P. Bhatt was appointed as its first regular Professor and Head of the department.

The Department of Criminology and Forensic Science is running two different courses under the School of Applied Sciences. The department is involved in teaching Criminology and Forensic Science at the graduate and postgraduate levels leading to B.A./M.A. in Criminology and B.Sc./M.Sc. in Forensic Science respectively along with the research facilities for Ph.D. in both the disciplines. The department is recognized as a DST-FIST-sponsored department. The contributions of the department are various and remarkable in teaching and research. The alumni of the department are occupying outstanding positions and are globally known for their achievements.

Curriculum Framework based on National Education Policy-2020

NEP-2020 has conceptualized the idea to develop well rounded competent individuals for making the nation a self-reliant and global leader. In the same spirit, we at the Department of Criminology and Forensic Science have developed a curriculum framework to encompass the goals of NEP 2020. To this end, we have incorporated choice of subject/disciplines of study, creating academic pathways having constructive combinations of disciplines for study with multiple entry and exit points as well as focus on **experiential learning** for students by introducing **multidisciplinary and skill enhancement courses** and actual Hands on training in the recent and trending aspects of the area of concern.

Postgraduate Curriculum Framework for Master of Criminology

1. Name of the Programme: M.A. in Criminology

2. About the Programme:

M.A. Criminology is a 4 Semester (2 years) Post Graduate program providing knowledge and developing skills in the disciplines of Criminology. Lectures/Hrs. 60

1. Learning Objectives:

- The objective of the course is to know about the research methods in Criminology.

2. Course Learning Outcomes:

Upon successful completion of the course, the student will learn the following:

- To understand the significance of research in Criminology.
- To know about the different research methods in Criminology and use of statistics in Criminology.
- To gain knowledge of computer application skills such as MS Office Word, Power Point, and Excel and using SPSS software in research work.

Unit-I Social research methodology:

(12 Hrs.)

- Importance and relevance of social research in criminology
- Nature and scope of research in criminal justice system.
- Research Methods
 - Selection of research areas, issues/problems
 - Objectives and hypothesis
 - Variables
 - Coverage and sampling
 - Techniques for data collection.
 - Statistical test
 - Data analysis
 - Interpretation inference and generalization
- Report writing.
- Referencing and indexing.

Unit-II Research Designs:

(12 Hrs.)

- Meaning nature and importance
- Types of research designs: Qualitative and Quantitative
 - Exploratory/ Formulative design
 - Descriptive design
 - Ex-post-fact design.
 - Factorial design

- Quasi experimental design
- Methods of Data Collection
 - Observation method
 - Questionnaire method
 - Interview method
 - Case study method
- Rating scales.

Unit-III Sampling Techniques:

(12 Hrs.)

- Merits and demerits of census and sampling.
- Sampling.
- Probability sampling: Concept and types-
 - Simple random sampling
 - Stratified random sampling
 - Cluster sampling
 - Systematic sampling
 - Multi-stage random sampling
- Non-probability sampling: concept and types-
 - Accidental sampling,
 - Quota sampling
 - Purposive sampling
 - Snowball sampling.

Unit-IV Analysis of data:

(12 Hrs.)

- Primary source and Secondary source of information.
- Computer data entry, checking and coding of data.
- Data Analysis.

Unit-V Statistical Techniques and Designs:

(12 Hrs.)

- Meaning and significance of statistical tests.
- Measures of central tendency & dispersion.
- Association, correlation & regression.
- Content analysis.
- Graphical and diagrammatic representation of data.
