O U T L I N E

12.1 Introduction to Pharmaceutical Documentation	404	12.3.1 Quality Target Product Profile (QTPP)	415
12.2 Pharmaceutical Development	405	12.3.2 Critical Quality Attributes (CQAs)	415
12.2.1 Components of the Drug Product	405	12.3.3 Linking Material Attributes and Process Parameters to CQAs—Risk Assessment	416
12.2.2 Drug Product	406	12.3.4 Design Space	417
12.2.3 Manufacturing Process Development	410	12.3.5 Control Strategy	420
12.2.4 Container Closure System	412	12.3.6 Product Life Cycle Management and Continual Improvement	421
12.2.5 Microbiological Attributes	412		
12.2.6 Compatibility	413		
12.3 Annex to Pharmaceutical Development	414	12.4 Submission of Pharmaceutical Development and Related Information in Common Technical Document Format (CTD)	422
